Introduction

The ADAM-3968/50 is a connector converter module particularly designed for the PCI-1751/MIC-3751. It converts the 68-pin SCSI-II connector of the PCI-1751/MIC-3751 to two 50-pin box headers. This enables the PCI-1751/MIC-3751 to connect to all Opto-22 compatible daughter boards such as PCLD-782B, PCLD-785B or PCLD-885. The screw terminals are used for wiring to the timers and counter of the PCI-1751/MIC-3751.

Features

- To be used with the PCI-1751/MIC-3751
- Converts one 68-pin SCSI-II connector to two 50-pin Opto-22 compatible box headers
- Case dimensions:
101.0 mm (L) x 77.0 mm (W) x 54.3 mm (H)
