In an aging society, medicine is in fast growing needs for people, thus drugstore plays a crucial role in modern retail industry.

Electronic shelf labels (ESLs) is just the right approach to merchandise medicines more carefully and rigorously, and expose necessary information like side effects, contraindication, and a lot more that customer should have known on the shelves.

Beyond that, Electronic shelf labels (ESLs) is also fundamental to IoT system optimizing drug stores' sales performance by accurately catch shopper's needs and quickly adjust stock for market demands. No doubt, Electronic shelf labels (ESLs) has started the digital revolution across drug chain stores.
